Arisia Bids for Haiti

A number of dealers have set aside an item or two in their shop for Arisia members to bid on. All money made on these items will be sent to an organization, agreed on by the dealer and the purchaser.

Please look for and bid on these items as you visit our generous dealers. If nothing catches your fancy, please consider sending some money to these organizations yourself.

In December 2007, Discworld author Terry Pratchett was diagnosed with "an embuggerment", as he calls it, Early-Onset Alzheimers Disease.
